ABOUT ME

Passionate frontend developer and cyber security student with experience in creating responsive websites using HTML, CSS, Bootstrap, and JavaScript. Interested in full stack development, UI/UX design, and modern web technologies.

EDUCATION

DCE Darbhanga — B.Tech in Computer Science (Cyber Security) 2025 - 2029

PROJECTS

Amazon Cloud Website Clone

Developed a responsive Amazon-style cloud/web service landing page using HTML and CSS with modern UI components and responsive layouts.

ShreyWrites - Blog Website

Responsive multi-page blogging website with search page, article cards, categories, tags, and modern UI.

Portfolio Website

Personal portfolio website showcasing projects, skills, and achievements.

Spotify Clone Website

Developed a responsive Spotify-inspired music streaming website using HTML, CSS, and JavaScript with modern UI design, music player layout, playlists, and interactive components.

Landing Page Projects

Modern responsive landing pages built using HTML and CSS.

TECHNICAL SKILLS

HTML5, CSS3, JavaScript, Bootstrap, Responsive Design, Git, GitHub, VS Code, C/C++, Cyber Security Basics

ACHIEVEMENTS

- Built multiple frontend projects independently.
- Practicing responsive web design and UI development.
- Actively learning full stack development and cybersecurity.

CERTIFICATES
